WHY TEST?

First, Standardized testing provides a great experience for your children to be in an official testing environment giving them the pleasure of filling out a bubble sheet with a #2 pencil! 😊

Secondly, having an independent party assess your student’s progress allows you as the parent to ensure progress in the foundational areas of study. There are a variety of test areas depending on your child’s grade, but will most likely include reading, language arts, science, math, social studies, and sources of information.

Finally, testing may help you assess your student's strengths and potential areas for improvement. In turn, this will further prepare them for the SAT & PSAT in high school. In addition, for high schoolers, if you qualify, you may be admitted into ESA Eta Sigma Alpha (the Homeschoolers National Honors Society) which you may use on your student’s high school transcript which validates your homeschool record by an independent source.

OVERVIEW

The Iowa Form E tests student achievement, whereas the CogAT measures the students’ reasoning abilities and not necessarily content learned. Therefore, we offer achievement testing every year and abilities testing every 2 years. See this link for further descriptions.

Iowa Assessments Form E

The new IOWA Tests Form E are standardized tests nationally normed in 2011 & 2017 that measure student achievement and growth across a continuum of next generation learning standards. These tests can monitor growth using a continuous, researched-based, vertical scale to accurately measure academic progress from kindergarten through high school. The IOWA Form E can indicate college and career readiness through high-quality, easily accessible, and interpretable assessment data helping educators and families determine whether students are on track for college and careers.

CogAT Form 7

The new CogAT 7 test measures students **learned reasoning abilities** in the three cognitive domains most closely related to success in school: verbal reasoning, quantitative reasoning, and nonverbal reasoning.

The CogAT Form 7 Evaluates:

Verbal Battery	Quantitative Battery	Nonverbal Battery
Verbal Analogies Sentence Completion Verbal Classification	Number Analogies Number Puzzles Number Series	Figure Matrices Paper Folding Figure Classification
